# Works Notification

The work is weather dependant, and we will keep you updated if the work schedule changes.

You may experience some noise and vibration during these works however the project team are working hard to minimise disruptions.

## **Why are we doing this?**

As our team progress works at Pukerito (Northern Connection), temporary changes to the existing road alignment are required before continuing with the intersection upgrade works. This will accommodate the increase in traffic movements once the project is complete in mid- May 2022. The work also seeks to enable and accommodate a safe and efficient linkage to the new intersection connecting Auckland Transport's Matakana Link Road.

## **Safety**

For your safety, the safety of our staff, and to minimise traffic disruptions, this work will be undertaken between 8:00pm and 4:30am, with stop/go traffic management in place from 7:00pm to 5:00am.

We would like to remind you that due to ongoing work in the area there is a reduced speed limit of 60km/h in place on this section of SH1.

Thank you for your patience and understanding while we complete this important work.

If you have any concerns or questions about these works, please do not hesitate to contact our communications team via email: [info@nx2group.com](mailto:info@nx2group.com) or our 24/7 freephone: 0508 7295 4636.
