

Celebrating our success and keeping you safe

One of the favourite parts of my role is watching my team learn, develop and be recognised for their successes.

A project of this scale, complexity and significance offers numerous opportunities for growth and sets our people up for a great future in construction and infrastructure.

We're lucky to have a wealth of talent on the project and recently I had the pleasure of seeing that talent recognised at the Civil Contractors NZ Auckland Excellence Awards. This is great acknowledgement to the team prior to the project's completion.

Young Engineer Kristan Dantas and Drone Surveyor Jonathan Kubiak.

The project team received two notable awards:

1. Best Onsite or Job Innovation Award for the work our survey team has undertaken in the digital and drone space.
2. Young Engineer of the Year was awarded to our Senior Site Engineer Kristan Dantas.

My team is understandably proud of these awards and to be part of a project which will have such a lasting impact on people's lives.

We're also aware that the construction work can be disruptive to the local community and we appreciate your on-going patience.

As we work to connect the new motorway to the existing State Highway 1 network you will continue to see our traffic management teams out on the roads keeping both our staff and the public safe.

Whether they're slowing traffic to allow large vehicles to exit or enter our site, manning stop/go stations or setting up protection so our teams can safely work beside the highway, our traffic management teams provide life-saving services to the project and the team.

This month they will spend some cold nights on Woodcocks Road where we have closures planned to allow us to install panels and barriers on the bridge. These closures are planned to take place between 8pm - 5am, Sundays through Thursdays. Detours will be in place and if the works can't take place due to the weather the road will remain open.

We will also continue with our night works on State Highway 1 at the Northern Connection.

Please, if you see our traffic crews out and about, give them a smile. They are doing very important work.

Ngā mihi,

Robert Jones

Project Director
